THE SACRIFICE OF HOGS

IN THE LAST seven days more than 12,000 hogs have been received at the Portland Union Stockyards. For the corresponding period a year ago the number received was a little more than 5,000 and two years ago for the third week in January the number was a trifle fewer than 2,000. These figures are taken from the books of the stockyards company and are to be relied upon.

Most of us remember that seven years ago hogs were selling on this market at 10 cents a pound, live weight. It will also be remembered that during the following year several buyers were sent to the Middle West in search of brood sows, which were bought and shipped to Oregon carload after carload. The trouble was that the hog market in Oregon was so much higher than ever before that almost everything that looked like a hog was sent to the shambles. Hence the high prices instead of benefiting us as a whole were a detriment, setting the hog growers back two or three years.

Now the large shipments come from another cause—the high price of wheat, for most of the hog-growers depend upon wheat to finish their hogs for market. This could be done at a fair profit with wheat at a normal price; when it soared up to the \$1.50 mark it meant a loss to feed it to hogs that were worth something like 7 cent a pound.

So again Oregon is being cleaned out of hogs. Of those reaching this market and we understand the same can be said of Seattle, Tacoma and Spokane, only a proportionate few are actually fit for slaughter. The other growers simply to save wintering them. And the price is falling day by day.

These abnormal conditions are to be regretted. They arise largely from a lack of business acumen among farmers. They do not think far enough ahead. They have, it is true, done wonders in making Oregon a hog producing state, thanks to the crusade for more hogs that the stockyards and packing house people have made, assisted very largely by the railways. But another forward step must be made by the farmers—they must not only grow hogs; they must grow feed for them. The idea that wheat is the only feed or the best feed for making pork is fallacious. Just as long as the farmers depend upon wheat we are liable at any time to have conditions arise as they exist at present.

The farmers, especially the small farmers should raise, as far as possible, their own hog feed—alfalfa, corn, peas—anything for finishing. They should not depend upon the wheat growers. They should so conduct their business as to buy wheat when the market justifies, but to depend almost solely it is sheer folly.

It looks now as if next year we would be sending East for brood sows again. Surely if the present shipments continue for another month or two we must. Then we shall be back right where we were seven years ago—starting anew in the business.

This is wrong. Three months ago the Northwest was in better shape as to the hog business than ever before. Then came \$1.50 wheat and we are approaching the bottom very fast.—Portland Oregonian.

Scattered Shots

SAN DIEGO'S colony of wounded aviators have formed a society for their kind of cripples. This is one organization a man has to almost break his neck in get into.

IF YOU WON'T number your house, or become a contributing member of the Klamath Chamber of Commerce, or do your Christmas shopping early, or buy-a-bale-of-cotton, you can still help a little by buying

"Leg Cane," the Latest Thing
for Women at Palm Beach

Miss Margaret Arbuckle is leading society at Palm Beach, Florida with a cane, which all other society women there are taking up. This is said to be the very latest thing at the beach and is having a tremendous vogue.

Miss Arbuckle carries the cane about with her to help her along the sandy beach. The handle shows distinctly the outline of a woman's leg from the knee down, delicately carved in wood.

Don't Neglect Those Rheumatic Pains

You know that rheumatism, once it becomes established, requires prolonged treatment—it means much misery and torture during that time. The joints become stiffened and swollen—you cannot move without pain—the pain is incessant and sleep is denied you. When the joints show a tendency to stiffen or become the least painful, then is the time to remember

Nyal's Rheumatic Remedy

—promptness of treatment counts much toward eliminating the disease—the longer you neglect it the more painful and lingering it becomes. Nyal's Rheumatic Remedy removes the poison from the system in the shortest possible time—its continued use will result in a permanent cure. A large bottle for \$1.00.

Whatever a good drug store ought to have—and many things that other drug stores don't keep—you'll find here. Come to us first and you'll get what you want.

CONCERNING OUR SCHOOLS

Matters of Interest to Pupils, Patrons, Teachers, Taxpayers

Editor's Note—In this department it is the intention of The Herald to present as much as possible, matters concerning the schools of Klamath county, and which concern not only the teachers and pupils, but the board of directors and all other persons in each district. In order to make it serve this purpose in the best possible manner, the co-operation of each school district is urged, and we will be glad to get before our readers things that the schools are interested in. Please send them in. They will be welcomed.

BILL TO IMPROVE
SCHOOL AFFAIRS

MEASURE IS INTRODUCED IN THE
LEGISLATURE SATURDAY A. M.
BY KLAMATH COUNTY REPRESENTATIVE — MAKES CHANGES

The provisions of the Smith bill follow:

Section 1—The County School Superintendent shall make an apportionment of the entire school fund then in the county treasury on the first Monday in October of each year, and at such other times as he may deem advisable. The County School Fund collected in pursuance of the school tax levied by the county course shall be apportioned as follows:

He shall apportion one-half of said fund to the districts of his county in proportion to the number of teachers employed during the preceding school year; PROVIDED that where a teacher was employed for a less term than eight months, then such districts shall receive one-eighth of an apportionment for each teacher for each month actually employed; PROVIDED that for each additional teacher, where a teacher was not employed for the preceding school year, a district shall be apportioned funds on the basis of a teacher for a term of seven months; PROVIDED that no district shall receive apportionments on a greater number of teachers than are employed for the current year.

The remainder of the county school funds shall be apportioned to the districts of his county in proportion to the aggregate daily attendance in districts during the preceding school year; PROVIDED that each district shall be credited with a constructive attendance in addition to actual attendance, of three hundred days for each month for each regularly established school in operation during the preceding school year; PROVIDED that for each school room in operation at the time of an apportionment, which was not in operation during the preceding school year, a district shall be apportioned funds on a constructive attendance of two thousand days.

Section 2—In joint districts, each county shall apportion one-half a teacher's apportionment and attendance monies on one-half the constructive attendance; PROVIDED that on actual attendance each county shall apportion funds on the attendance coming from such county.

Section 3—Non-resident pupils shall be admitted to a school by the consent of the school board and the approval of the County Superintendent.

Section 4—The consent of the district boundary board of the county must be secured for the establishment of additional schools in districts of the third class if such schools are to be considered in the distribution of county funds.

Section 5—The basis of all apportionments under this act shall be the Teacher's annual reports, and other records in the office of the County School Superintendent.

Section 6—The provisions of this act shall apply to public schools only.

Section 7—In lieu of the establishment of new schools or the maintenance of established schools, the district boundary board of a county may, when conditions seem to warrant fix such a rate for the board or transportation of public school pupils as it may deem fit and proper, and thereafter any expense incurred in boarding or transporting the pupil, up to rate fixed by said board, shall be a charge upon the common school fund of the county; PROVIDED that where provision is made by the boundary board for the board or transportation of any pupil, the provisions of the Compulsory Education law shall be enforced at the option of said boundary board, even if such pupils reside more than three miles from an established school.

Senator Moser has introduced a bill to regulate the manufacture of mattresses.

Clerk Not Essential

The State Superintendent upon the advice of the attorney-general has ruled that the school clerk is not a member of the school board and that therefore a Board meeting is legal even if the clerk had received notice of such meeting and was therefore absent.

NO COLD LUNCH
IN THIS SCHOOL

EFFICIENT TEACHER OF SUMMER SCHOOL CHOOSES FINE PLANS THAT OTHER DISTRICTS COULD ALSO UTILIZE

The Summers school, District No. 31, Mrs. Bertha Ezell teacher, has taken up the plan of serving hot lunches to the pupils of the school, and with marked success. Soups, creamed potatoes, cocoa along with the side dishes brought from home makes up the daily menus. The children take turn about for a week in dishing and preparing the food. The school board has very kindly furnished a small oil stove, kerosene, sugar and salt. Milk and vegetables are brought from home.

The spirit of the school, the attitude of the children toward their work, and the school work in general has improved wonderfully there, and it seems reasonable that a part at least is due to warm and wholesome lunches.

8-MONTH TERM
BILL IS LOST

JACKSON COUNTY WOMAN LEGISLATOR FAILS TO HAVE LENGTH OF MINIMUM TERM EXTENDED TWO MONTHS

The house at Salem Thursday defeated the bill introduced by Marian B. Towne of Jackson county, making eight months the minimum term for any school district. The law provides six months as the minimum.

Miss Towne in defense of the bill held that it is largely because of lack of educational advantages that people leave the farms. She held that better school facilities are essential to all rural communities.

Those opposing the bill held that the cost was more than a lot of struggling districts could bear.

More than 40,000 square feet of exhibit space will be occupied by the German government at the Panama-Pacific International Exposition. The German display will be divided between the palaces of education, liberal arts, varied industries and machinery. In addition to these exhibits there will be displays in the palace of fine arts and other exhibit palaces by German industries. The war has stimulated interest in the exposition on the part of Germany, for before the declaration of war Germany was not participating officially.

MUSIC HATH CHARMS

H. Orem, the Klamath Falls Music House man, claims that Mrs. H. B. Persham, of the Hot Springs addition, has just made one of the biggest bargains in the line of musical instruments ever known. Inasmuch as she purchased for \$700 a Player Piano that generally sells for a much larger sum. He also claims to have other bargains on hand that are equally as good, and invites public inspection.

STATUS OF FREE
TEXT BOOK BILL

BILL KILLED FRIDAY BY SENATE IS TO BE FOLLOWED BY ANOTHER PROVIDING FOR SAME THING FOR PUBLIC SCHOOLS

The Schuebel bill to repeal the Patton Free Textbook bill enacted in 1913 is now up to the Governor. It passed both house and senate.

Under the Patton bill several districts have adopted free textbooks—Klamath Falls, St. Johns and Salem Heights, are instances.

The Patton bill was non-sectarian, providing where the people of a district vote free textbooks, the same shall be furnished to parochial schools.

The Schuebel repeal bill is followed by another Schuebel bill providing free textbooks for public schools only.

MOST TEACHERS
NEW TO COUNTY

SURVEY OF SCHOOL DISTRICTS SHOWS THAT THE MAJORITY OF INSTRUCTORS ARE NEW THIS SEASON

In making a survey of the teacher situation in Klamath county we find as follows:

The total number of teachers of Klamath county is 96.

Those having taught one or more years in their present position number 35.

Those never having taught in the county before number 49. Those new to their present school number 61.

The rural schools taken separately, appear as follows:

Whole number of rural teachers, 54; one year or more in present position, 13; those new to present position, 41.

The condition as set forth above is certainly not conducive to the best school conditions. The teacher's tenure of office, if she is efficient, should be more secure, and the teachers should attempt to remain in the same position for a longer period.

Teachers to do the best work should know the needs of their respective communities, should in a measure be leaders, but this is practically impossible if the teacher is a mere disinterested stranger.

There will be a free lecture on Christian Science by Clarence W. Chadwick, C. S. B., member of the board of trustees of the First Church of Christ Scientist, of Boston, Mass., at Houston's opera house, Thursday evening, February 4, at 8 o'clock. A cordial invitation is extended to the public.

OPEN NOSTRILS! END
A COLD OR CATARRH

How To Get Relief When Head and Nose are Stuffed Up.

Count fifty! Your cold in head or catarrh disappears. Your clogged nostrils will open, the air passages of your head will clear and you can breathe freely. No more muffled, hawking, mucous discharge, dryness or headache; no struggling for breath at night.

Get a small bottle of Ely's Cream Balm from your druggist, and apply a little of this fragrant antiseptic cream in your nostrils. It penetrates through every air passage of the head, soothing and healing the swollen or inflamed mucous membrane, giving you instant relief. Head colds and catarrh yield like magic. Don't stay stuffy up and miserable. Relief is sure. (Paid Advertisement)
